## Sex, Drugs & Mental Health:

As part of the ongoing partnership between South Shore Health & South Shore Regional School Board/Schools Plus, the existing in school addictions workers were expanded and reworked to broaden their scope of work to include Mental Health & Sexual Health. This allowed for services to be available in all Jr. & Sr High Schools & allowed for connections between various school based services & other school supports. This program is in Year II & working through the challenges.

Model:

I want to shine a light on ...

The need to move beyond early years involvement predominantly to entertain adults and shift toward early years work as significantly shaping society - e.g. play based practices, trauma-informed approaches, and inspiring, non-traditional partnerships.
