Message from the Nova Scotia Housing Development Corporation

On behalf of the Nova Scotia Housing Development Corporation, we are pleased to present the corporation's 2008–2009 business plan.

In concert with the Department of Community Services, the corporation provides the base upon which to build healthy and sustainable communities and the foundation for Nova Scotia's families to grow and prosper. Access to safe, adequate, and affordable housing is fundamental to personal well-being, providing a safe place for families to live and raise children and enabling them to participate in the social and economic life of the province.

This fiscal year, we are pleased to build on our close relationship with the Department of Health, as we work over the coming years to provide financial assistance to support that department's 10-year, \$260-million Continuing Care Strategy.

We will also establish an interdepartmental committee, with representation from Community Services, Finance, and Treasury and Policy Board, with support from the department's legal counsel, to examine the current governance structure of the corporation and to make recommendations to strengthen accountability and support the efficient and effective discharge of the corporation's business.

For 2008–2009, the corporation will continue to assess its current lending practices and identify new lending opportunities that will enable government to maximize its investment in social and supported housing. This multi-year project looks to the goal of having a clear position, mandate, and policy on mortgage lending.

We look forward to continuing our work with the corporation, its many stakeholders, partners, and organizations as we help provide Nova Scotians with safe, comfortable homes.
