

Department of Community Services

French-language Services Plan for 2008-2009

Message from the Deputy Minister

On behalf of Nova Scotia's Department of Community Services, I am pleased to present our department's French-language Services Plan for 2008-2009.

We have witnessed marked improvements in our service delivery to the Acadian and francophone communities. It is our intent to build on this momentum with this and future Plans. The progress we are making is, hopefully, reflective of the needs and priorities expressed by the Acadian and francophone community.

We look forward to being a part of this community's quest to bring about sustainable gains. Our department's commitment to client service excellence is genuine. Having French-language Services within our Client Service Initiative demonstrates the direction and dedication we place on this essential program.

The Acadian and francophone community can count on open communication with our department. We hope to play an integral part in this community's accomplishments and overall growth.

Our department's response to public requests for communication in French

More than simply being part of the service delivery process, our staff also contributed to the conceptualization of the French-language Service Plan. Presentations were made to both Head Office and Field staff. These served as information sessions but more importantly provided opportunities for staff to contribute to the planning process.

Our intranet site has increased the amount of information related to French-language Services. Also, the addition of a full time French-language Services Coordinator has provided Acadian and francophone communities a direct link to our programs and services.

It is our intention to adhere to Provincial Communication and Translation Guidelines. The Acadian and francophone community will be informed and consulted in a manner sensitive to their cultural and linguistic needs.

French-language Services offered by Department of Community Services

- Offices in Yarmouth, Digby and Inverness counties are presently offering a range of services in French. Also included are two satellite offices (Cheticamp and Meteghan) offering the majority of their services in French.
- Our department recognizes the importance Acadians and francophones place in holding meetings in their native language and consistently assigns a bilingual representative to provincial strategies.
- Early Childhood Development supports numerous programs and services aimed at assisting our young Acadians and their families in this crucial time of life.
- Our department is helping Transition Homes increase the services they offer to the Acadian and francophone communities.
- We now have a full time French-language Coordinator dedicated to advancing our commitment towards this initiative.
- Many of our offices and staff proudly identify themselves as being able to offer services in French with the provincial 'Bonjour' logo.

How the plan will contribute to the preservation or growth of the Acadian and francophone communities

Many of the enhancements referred to in this French-language Service Plan are Policy and Protocol driven. This ensures our department's long term commitment to this vital initiative.

Objectives	Progress on 2007-2008 Plan	Goals	Planned Actions/Activities for 2008-2009
