**2015-2016 French-language Services Plan  
Plan de services en français 2015-2016**

## *Message from the Deputy Minister*

---

Bonjour

On behalf of Nova Scotia's Department of Community Services, Housing Nova Scotia and the local Housing Authorities, I am pleased to present our department's French-language Services (FLS) Plan for 2015-2016. Our hope is to make it easier for Acadian and francophone community to access our services in their own language.

The vital programs and services we offer to Nova Scotia children, youth and families have been enriched this past year with some new additions to our organization. The Voluntary and Non-Profit Sector Division, Disabled Persons Commission and the Nova Scotia Advisory Council on the Status of Women were welcome additions to Community Services. Their French language service initiatives are incorporated within this plan. Bienvenue!

In collaboration with other designated public institutions, we are committed to enhancing French-language Services to all Nova Scotians. We plan to continue to focus on actively offering French services in those areas where it will have the most impact. Offices and staff with the capacity to offer services in French are indicating this through visual and oral cues- please look for their *Bonjour!* signs. Offices without this capacity now have the ability to access francophone staff through our internal online directory of bilingual staff. This coordinated approach to service delivery is expected to enhance our capacity to offer services in one's language of choice.

We recognize that the Acadian and francophone community plays a vital role in the cultural richness of our province. It is our commitment to share in its growth by making measurable and sustainable progress for this and future generations. This plan sets out our goals for the upcoming year and also identifies the advances achieved over the past year.

We invite you to visit our website for program information and services available in French at <http://gov.ns.ca/coms/fr/index.html>.

Also, feel free to contact our bilingual French-language Services Coordinator who may also help you access some of our programs and services. His contact information is:

### ***Department's Planned Measures for 2014-2015***

#### 2.1

- Our organization will have access to a province-wide internal directory/data base of employees capable and willing of offering French services. When a client would be better served in French, an active offer can now be made to accommodate this need. DCS/HNS offices and employees will be taking measures to self-identify and ensure that French-language Services are evident, available, and accessible. When an office or program does not have the capacity to offer services in French itself and the need is identified, they will now have the ability to search for bilingual staff within our own organization who also possess the specific program knowledge.
- In our latest FL planning questionnaire of DCS/HSN managers and directors, only one-third of them indicate their offices are actively offering French services. However, an astounding 87% indicate their office would be willing to participate in such an initiative. It is therefore our aim to realize a steady increase in the number of DCS/HNS offices and programs who will be actively offering French services. These will be tracked and reported on annually.
- The Employment Support and Income Assistance (ESIA) program is in the process of translating its program forms to be able to provide the option to Francophone clients of having their application, Release of Information Consent form and the Understanding of Participation form completed in French. These are mandatory forms that ESIA clients must complete as part of the eligibility determination process for benefits. As such, it is important to ensure clients fully understand the content.
- Family and Community Supports will make it possible for the public to now have the ability to request a search of the Child Abuse Register in either French or English.

## 2.2

- Our ESIA policy sections hope to have online information available in French during the 2014-2015 fiscal year. Our ESIA policy division is currently reviewing its policy manual and consideration will be given to the inclusion of FLS when completing any changes to the on-line manual.
- Family and Community Supports Division plans to translate documents related to the Child Abuse registry and update the Website for public access to forms in French; translate booklet for families who have children taken into care and to translate other Child Abuse Registry documents and update website material accordingly.
- DCS Licensing Services Division will assure translation of its checklists and application forms. These will all be available to the public in 2014-15.

## 2.3

- DCS/HNS- FLS Coordinator will work with each departmental program and region to identify FL initiatives and strategic plans that are based on Acadian community needs. All management teams will be engaged in the FLS planning process. Each team will also be responsible to indicate planned initiatives and report accordingly annually.
- Having the FL Coordinator as an active member of the Workplace Initiatives- Provincial Advisory Committee proves to be a valuable asset for both FLS and Workplace Initiatives. This partnership greatly increases the amount of FLS being considered as our organization develops departmental programs and conducting consultations. The Coordinator will continue to update and promote FLS initiatives through Provincial Advisory Committee engagement.
- FLS Coordinator responsible to promote and assist employees wishing to participate in French language training, Acadie at a glance, French Lunch & Learns, Consortium national de formation en santé, etc. Attendees will be tracked and reported on annually. Disseminate all FLS training information through managers/directors and also post on FLS intranet site.
