

Environmental Assessment Approval

Approval Date: **MAY 17 2019**

MacLellans Mountain Quarry Expansion

S.W. Weeks Construction Ltd.

McLellans Brook, Pictou County, Nova Scotia

Terms and Conditions for Environmental Assessment Approval

1 Definitions

- 1.1 Approval means the environmental assessment (EA) Approval terms and conditions, which relates to the Approval Holder and their Project situated at or near McLellans Brook, Pictou County, Nova Scotia.
- 1.2 Environment Act means Environment Act 1994-95, c.1, s.1, and includes, unless the context otherwise requires, the regulations made pursuant to the Act, as amended from time to time.
- 1.3 Department means the Department of Environment (unless otherwise specified in the Approval conditions), and the contact for the Department for this Approval is: Granton Office, Regional Inspector.
- 1.4 Minister means the Minister of Environment.

2 Scope

- 2.1 Project means the MacLellans Mountain Quarry Expansion Project described in the EA Registration Information. Registration Information means the Registration Document and/or Addendum for the Project submitted to the Department during the EA review.

3 General

- 3.1 The Approval Holder shall, within two years of the date of issuance of this Approval, commence work on the Project unless granted a written extension by the Minister.

- 3.2 The Approval Holder shall provide written notification to the Department of the commencement date of the Project, at a minimum 30 days prior to the commencement.
- 3.3 The Approval Holder shall provide to the Department a concordance table detailing the status of the EA terms and conditions on January 31 of each year until released in writing by the Department.
- 3.4 Any proposal by the Approval Holder for expansion, modification or relocation of any aspect of the Project from that proposed in the Registration Information shall be submitted to the EA Branch for review and may require an EA.
- 3.5 Nothing in this Approval relieves the Approval Holder of the responsibility for obtaining and paying for all other licenses, permits, approvals or authorizations necessary for carrying out the Project which may be required by municipal by-laws or provincial or federal legislation. The Minister does not warrant that such licenses, permits, approvals or authorizations will be issued.
- 3.6 The Approval Holder shall not transfer, sell, lease, assign or otherwise dispose of this Approval without the written consent of the Minister. The sale of a controlling interest of a business or a transfer of this Approval from a parent company to a subsidiary or an affiliate is deemed to be a transfer requiring consent.
- 3.7 If there is a discrepancy between the Registration Information and the terms and conditions of this Approval, the terms and conditions of this Approval shall apply.
- 3.8 Upon any changes to the Registry of Joint Stock Companies information related to the Approval Holder, the Approval Holder shall provide a copy to the Department within 5 days of the changes.
- 3.9 Where a timeline is associated with a condition(s) of the Approval, the Approval Holder shall fulfil the requirements of the condition(s) within the prescribed timeline, unless otherwise authorized in writing by the Department.
- 3.10 The Approval Holder shall immediately notify the Department of any incidents of non-compliance with this Approval.
- 3.11 The Approval Holder shall bear all expenses incurred in carrying out the

environmental management and monitoring required under the terms and conditions of this Approval.

- 3.12 Unless specified otherwise in this Approval, all samples required to be collected by this Approval shall be collected, preserved and analyzed, by qualified personnel, in accordance with recognized industry standards and procedures that are deemed acceptable to the Department.
- 3.13 The Approval Holder shall ensure that this Approval, or a copy, is present at the Project site while personnel are on site and that personnel directly involved in the Project are made fully aware of the terms and conditions which pertain to this Approval.
- 3.14 The Approval Holder shall update and/or revise any of the plans, programs or other documents required in this Approval to reflect the progressive development of and/or changes to the Project at a schedule acceptable to, or upon the request of, the Department.
- 3.15 Based on the results of the monitoring plans required in this Approval, the Approval Holder shall make necessary modifications to mitigation plans and/or changes to Project operations to prevent unacceptable environmental effects, as required by the Department.
- 3.16 Where a condition of this Approval requires the Approval Holder to consult a particular party or parties regarding the content of a document, the Approval Holder shall: provide a written notice to each such party inviting comments on the document within a reasonable timeframe, provide a written explanation to each party how the comments are addressed and considered, as well as maintain a record of consultation with each party and provide a copy of such consultation to the Department.

4 Water Resources

- 4.1 The Approval Holder shall not conduct any Project activities, or removal of vegetation within 30 metres of a watercourse and/or a wetland unless otherwise authorized in writing by the Department.
- 4.2 Refueling shall not be conducted within 30 metres of any surface water resource.
- 4.3 The Approval Holder, as part of the application for the Part V Approval under the Environment Act, shall submit a surface water quality and

quantity monitoring plan including sampling locations and parameters to the Department for review and acceptance. The Approval Holder shall develop the plan in consultation with the Department's Sustainability and Applied Science Division and Fisheries and Oceans Canada and shall implement the plan once the plan is deemed acceptable by the Department.

- 4.4 The Approval Holder shall provide an updated hydrological assessment prior to Project operation within Development Areas B and C (as defined in the EA Registration Information) to address comments on the Addendum from the Department's Sustainability and Applied Science Division, including evaluating flow changes in Stewart Book, particularly the section between WC1 and WC4 confluences, and WC4 (as described in the Addendum). This assessment should be supported and informed by surface water monitoring. The results of the assessment shall be submitted to the Department's Sustainability and Applied Science Division for review and acceptance. Based on the results of the assessment, the Approval Holder shall make necessary modifications to mitigation plans and/or changes to Project operations to prevent unacceptable environmental effects, as required by the Department.
- 4.5 Prior to Project commencement, the Approval Holder shall submit an erosion and sedimentation control plan, developed by a qualified professional engineer or geoscientist licensed to practice in the Province of Nova Scotia, to the Department for review and acceptance. The Approval Holder shall implement the plan once the plan is deemed acceptable by the Department.
- 4.6 The Approval Holder, as part of the application for the Part V Approval under the Environment Act, shall submit a stormwater management plan to the Department for review and acceptance. This plan shall include final design details and supporting rational completed by a qualified professional engineer or geoscientist licensed to practice in the Province of Nova Scotia. The plan shall include details to support the mitigation of scour, flooding, sediment loading and thermal charging related to system discharges, and consideration for the potential impacts of climate change in sizing requirements. The Approval Holder shall implement the plan once the plan is deemed acceptable by the Department.
- 4.7 The Approval Holder shall immediately contact the Department should sulphide bearing material be encountered on the Project site, and at the

request of the Department implement a plan to manage the sulphide bearing material.

- 4.8 The Approval Holder shall apply for Wetland Alteration Approval from the Department prior to Project operation within Development Areas B and C (as defined in the EA Registration Information).
- 4.9 The Approval Holder, as part of the application for the Part V Approval under the Environment Act, shall submit a groundwater monitoring plan including the location of monitoring wells and monitoring parameters to the Department for review and acceptance. This plan shall be designed to evaluate potential impacts to both groundwater levels and groundwater quality. The Approval Holder shall implement the plan once the plan is deemed acceptable by the Department.
- 4.10 The Approval Holder shall not excavate within 1 metre of the measured maximum annual water table level unless otherwise authorized in writing by the Department.
- 4.11 Prior to any blasting, the Approval Holder, as part of the application for the Part V approval under the Environment Act, shall provide for review and acceptance, an updated blasting plan. The plan shall include an updated pre-blast survey for structures and water wells within 800 metres of the point of the blast, a detailed blast monitoring plan, and a full blast damage response policy.
- 4.12 The Approval Holder, at their expense, shall replace any water supply which has been lost or damaged as a result of Project operations, as authorized and required by the Department.

5 Flora and Fauna

- 5.1 Prior to commencement of the Project, the Approval Holder shall provide Nova Scotia Department of Lands and Forestry, Wildlife Division with digital way points and shape files revealing precise locations for wetlands and species listed under the Species at Risk Act and/or Endangered Species Act as well as all S1, S2 and S3 listed species under the Atlantic Canada Conservation Data Center, identified during field work within the area of the Project. The date of the above noted field data shall also be provided to the Department of Lands and Forestry. The Approval Holder shall provide written notification to the Department that the files have been

provided to the Department of Lands and Forestry.

5.2 The Approval Holder shall develop, in consultation with the Department of Lands and Forestry Wildlife Division, a wildlife management plan to address the following points:

- a) measures to protect all identified species listed under the Species at Risk Act and/or Endangered Species Act as well as all S1, S2 and S3 listed species under the Atlantic Canada Conservation data Centre;
- b) targeted common nighthawk surveys (*Chordeiles minor*);
- c) approaches and procedures to avoid common nighthawk and bank swallow (*Riparia riparia*) nests during the breeding season in the event Project operations create nesting habitat;
- d) surveys for snake overwintering habitat (hibernaculum) prior to disturbing archaeological features identified in the EA Registration Information;
- e) measures to protect reptiles, including the use of exclusion fencing where appropriate; and
- f) measures to manage non-native (alien invasive) plant species including surveys every three years.

Prior to commencement of the Project, the Approval Holder shall ensure the wildlife management plan is deemed acceptable by the Department. The Approval Holder shall implement the plan immediately following the acceptance of the wildlife management plan by the Department.

5.3 The Approval Holder shall clear vegetation outside of the breeding season for most bird species (April 15 to August 15), unless otherwise authorized in writing by the Department. Vegetation clearing shall be recorded in a daily log that shall be available for review by the Department indicating the date and time of the clearing operation and the contractor.

5.4 The Approval Holder shall report sightings of avian species at risk as listed on Schedule 1 of the Species at Risk Act to Environment Canada Climate Change, Canadian Wildlife Service. The Approval Holder shall provide written notification to the Department that sightings have been reported to the Canadian Wildlife Service.

6 Air Quality

- 6.1 At the request of the Department, the Approval Holder shall develop and implement an air quality and/or dust monitoring plan. This plan shall include, but not be limited to, sampling locations, parameters, monitoring methods, protocols and frequency.
- 6.2 At the request of the Department, the Approval Holder shall monitor noise levels.

7 Archaeological and Heritage Resources

- 7.1 The Approval Holder shall cease work and contact the Special Places Coordinator, Nova Scotia Department of Communities, Culture and Heritage (CCH) immediately upon discovery of an archaeological site or artifact unearthed during any phase of the Project. If the find is of certain or possible Mi'kmaq origin, the Approval Holder shall also contact the appropriate Mi'kmaq representatives as advised by CCH.

8 Public Engagement

- 8.1 Prior to commencement of the Project, the Approval Holder shall establish a complaint resolution plan for receiving and responding to complaints related to the Project, including a reporting system which records and documents steps taken to determine the cause of complaint and the corrective measures taken to alleviate the cause and prevent its recurrence. The Approval Holder shall implement the plan once deemed acceptable by the Department.
- 8.2 Prior to commencement of the Project, the Approval Holder shall appoint a contact person designated to deal with complaints and shall provide the contact information to the Department.
- 8.3 At the request of the Department, the Approval Holder shall develop and implement a plan for the formation and operation of a Community Liaison Committee (CLC) including terms of reference, which meets the Department's Guide for the Formation and Operation of a Community Liaison Committee. The Approval Holder shall operate the CLC for the duration of the Project or until released in writing by the Department.

9 Engagement with the Mi'kmaq of Nova Scotia

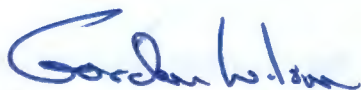

- 9.1 At the request of the Department, the Approval Holder shall develop and implement a Mi'kmaq Communication Plan for the Project, which will include a process for communicating Project details and seeking input from the Mi'kmaq community.

10 Contingency Plan

- 10.1 The Approval Holder, as part of the application for the Part V Approval under the Environment Act, shall develop a contingency plan which meets the Department's Contingency Planning Guidelines. The plan shall provide prevention measures and address accidental occurrences including but not limited to: spills of hydrocarbons or other hazardous materials, failure of erosion and sediment control measures, fires, and vehicular collisions. The Approval Holder shall implement the plan once deemed acceptable by the Department, over the lifetime of the Project.
- 10.2 The contingency plan shall be kept on Project site at all times when personnel are on site and made available to the Department upon request.

11 Rehabilitation

- 11.1 This Approval is subject to progressive rehabilitation at the existing Project site being completed as required by the Department.
- 11.2 Project operations shall be completed and rehabilitated as required by the Department.
- 11.3 Re-vegetation shall be limited to the use of native species, unless otherwise authorized in writing by the Department.

Gordon Wilson, MLA
Minister of Environment
