The following comments and questions outline some of the main concerns the survey respondents had to the proposed Keltic Petrochemical project that weren’t addressed specifically in the survey questions.
• Require more information
• Who is going to be left paying for the new highway after the gas runs out? We already have a lot of bad roads to pay for in Guysborough Co. now.
• Hopefully it will prevent “out migration” and bring people back to Guysborough Co.
• Public access to highway- how will the highway impede private access to property?
• We can see improvements now: new stores, businesses and more jobs! University is larger, more people moving in, which creates jobs, etc. Keep our young people here!
• We need this project
• Bring it on, we need it bad around here
• Hope it happens
• Put that road in
• Let it come
• Concern of accident, gas spillage.
Keltic Petrochemical Survey

Where do you live: ______________________
(name of closest community)

Do you own property near the project?
yes  no

Do you rent property near the project?
yes  no

Is this property:
• along the proposed highway alignment?
• within 1 km of the proposed petrochemical complex?
• within 10 km of the proposed petrochemical complex?
• within 25 km of the proposed petrochemical complex?

What is your occupation? ______________

Why are you interested in the project?
• live in area
• own property in area
• rent property in area
• employment/business opportunity
• other (please specify)

What benefits do you expect from the project?
• employment at facilities
• employment from other businesses and industries
• new roads
• community improvements
• higher property value
• increased attractiveness or livability
• short-term benefits to the region or community
• long-term benefits to the region or community
• other (please specify) __________

What concerns do you have with this project?
• impacts from the proposed highway, including land access, traffic and habitat loss
• negative environmental impacts, including land, water, climate and wildlife
• impacts on fisheries, forestry and agriculture
• increased shipping activity
• other (please specify) __________

Do you support this project?
yes  no
