

NOTICE

Registration of Undertaking for Environmental Assessment ENVIRONMENT ACT

This is to advise that on March 23, 2017 Lafarge Canada Inc. registered the proposed Lower Carbon Fuel: Tire Derived Fuel (TDF) System for environmental assessment, in accordance with Part IV of the *Environment Act*.

The purpose of the proposed undertaking is to construct and operate a system to use scrap tires, in place of coal or petroleum coke, as a low carbon fuel in Kiln #2 at their Brookfield Cement Plant located in the community of Pleasant Valley, approximately 13 km southeast of Truro, Nova Scotia in the Municipality of the County of Colchester. Pending approval to proceed, construction is anticipated to commence mid 2017 with operations to begin in late 2017.

Copies of the environmental assessment registration information may be examined at the following locations:

- Colchester-East Hants Public Library: Truro, 754 Prince Street, Truro, NS
- Colchester-East Hants Public Library: Stewiacke, 295 George Street, Stewiacke, NS
- Lafarge Brookfield website: <http://www.lafargebrookfield.ca/>
- Nova Scotia Environment, 36 Inglis Place, Truro, NS
- EA website (when available) at www.novascotia.ca/nse/ea/

The public is invited to submit written comments to:

Environmental Assessment Branch
Nova Scotia Environment
P.O. Box 442, Halifax, Nova Scotia, B3J 2P8

on or before April 24, 2017, or contact the Department at (902) 424-3960, (902) 424-6925 (Fax), or e-mail at EA@novascotia.ca.

All submissions received, including personal information, will be made available for public review upon request.
