

The temporary hand wash station setup consists of

- A food-grade container with a spigot that can provide a continuous flow of potable water
- Liquid soap in a pump dispenser
- Paper towels
- A bucket to collect the wastewater
- A supply of water at 38–49 degrees Celsius

The temporary hand wash station must be set up on a table.

The wastewater must be disposed of in a toilet or other receptacle connected to a sanitary sewer.

### **Hand sanitizers do not replace the requirements for a Temporary Hand Wash Station**

#### **Always wash your hands:**

- Before and after touching food
- After using the washroom
- After sneezing, coughing, or blowing your nose
- After handling garbage
- After handling money
- After touching animals/pets
