Introduction

The Department of Municipal Affairs and Housing compiles municipal indicators on behalf of the Nova Scotia Government and Association of Municipal Administrators of Nova Scotia (AMANS) that focus on three areas:

- financial matters;
- administration of the municipality; and
- characteristics of the community.

This report creates a snapshot from those financial and demographic statistics to help community members and decision makers better understand:

- the municipality in which they live;
- the municipality's key characteristics; and
- the municipality's financial risks.

For example, the snapshot makes it easy to:

- compare the Three-Year Change in Tax Base indicator to understand the municipality's revenue growth in comparison to cost of living; and
- use the change in population to indicate whether a community's population is growing or declining and its potential impact on municipal revenues and expenses.

Chapter 1 - Municipal Profile

Municipalities are diverse and operate within unique demographic and economic characteristics. These characteristics have a significant impact on municipal performance and subsequent strategies required to ensure a sustainable environment. This chapter outlines the unique demographic and economic characteristics of the Municipality, specifically its composition, population trends, demographics, median household income levels, employment rates, and educational attainment. The municipal profile trends could have impacts on the current and potential future tax base for a municipality.

Economic Indicators

Along with population trends, employment rates and median household income are important economic indicators. Education levels can also play a crucial role in economic and social progress and can help improve income distribution. These factors provide an indication of the wellbeing of the economy and labour force.

	2016 Census	2011 Census	+/-	Rural Average
Median Household Income	\$58,624	\$50,075	\$8,549	\$57, 294
Employment Rate	52.0%	53.7%	-1.7%	50.1%
Education Beyond High School	51.2%	50.4%	0.8%	49.4%

Source: 2011 and 2016 Statistics Canada

Median household income: Lunenburg's median household income is higher than the Provincial rural average, and has increased since 2011.

Employment rate: In a healthy economy, the employment rate is between 97% and 95%. The District of Lunenburg's employment rate is above the Provincial rural average, although it has decreased.

Education level: Lunenburg's education level is higher than the Provincial rural average and has increased since 2011.

Chapter 2 - Assessment Information

Since property taxes are a primary source of revenue for most municipalities, special emphasis has been placed on reviewing assessment trends.

Three-year change in uniform assessment[1]:	5.2%	growth keeps pace with cost living
Highest reliance on a single business or institution:	0.4%	not dependent (low risk)
Residential Tax Effort:	2.4%	has some flexibility (low risk)

The line graphs below show the five-year trend of residential and commercial portion of the municipality's uniform assessment.

Figure 7 - Residential assessment value over the last five years. Source: 2016-2020 Statement of Estimates - Assessment

Figure 8 - Commercial assessment value over the last five years. Source: 2016-2020 Statement of Estimates - Assessment

[1] Uniform assessment is the value of a municipality's taxable property assessment plus the capitalized value of payments in lieu of taxes.

Chapter 3 - Financial Information

General Overview:

Audited financial statements are presented on a consolidated basis. These consolidated financial statements present all municipal entities as one single reporting entity:

- all the individual funds managed by the Municipality
- organizations or enterprises that the Municipality owns or controls, such as:
 - Lunenburg County Multi-Purpose Centre Corporation (50%)
 - Municipal Joint Services Board (62%)

The Municipality's non-consolidated financial statements present only the individual funds managed by the Municipality, such as the General Operating Fund, General Capital Fund, Water Operating Fund, Water Capital Fund, Non-operating Reserve Fund, and the Operating Reserve Fund. Non-consolidated financial statements are reconciled but not audited.²

Financial Reporting Compliance:

Audited financial statements and financial information return submitted:	yes
Submission of financial information:	Before deadline ³
Financial statements include:	
Remuneration and Expenses for Elected Officials and CAO/Clerk Note:	yes
Unqualified Opinion:	yes
Quarterly Expenditure report posted online:	No
Summary Expenditure Report submitted:	yes
Statement of Estimates and assessment information submitted:	yes

² Please be advised that, although the Department reconciles, at a high level, a municipality's non-consolidated financial statements to the consolidated financial statements, the non-consolidated financial statements are usually not audited nor presented in full accordance with Canadian public sector accounting standards.

³ Annually, municipalities are required to submit their financial information by Sept 30th.

Chapter 4 - Financial Condition Indicators: House Model

The Financial Condition Indicators (FCIs) condense multiple sources of information into a single visual “House Model” graph. The House Model gives a quick visual of a municipality’s strengths and possible areas where a municipality may want to focus its attention.

The Model:

The Model consists of 13 indicators organized into base, structure and roof, focusing on:

- roof: 4 key performance indicators;
- structure: 6 financial indicators that concern management and debt; and
- base: 3 indicators relating to internal and external factors that could impact the municipality's revenue stream.

Risk thresholds:

Each indicator is assessed against a risk threshold:

- low risk (**green**);
- moderate risk (**yellow**); and
- high risk (**red**).

Overall assessment:

The Department calculates an overall assessment for fiscal instability:

- low risk (**green**): 10-13 FCIs meet low risk threshold;
- moderate risk (**yellow**): 8-9 FCIs meet low risk threshold; and
- high risk (**red**): 7 or less FCIs meet low risk threshold.

Overall Assessment

Overall Assessment for: Municipality of the District of Lunenburg

Financial Condition: **Low risk**

The overall Financial Condition Index assessment for the Municipality of the District of Lunenburg is Low risk

This means that although the Municipality has a few challenges, it is considered low risk for fiscal instability.

Comparison: Most rural municipalities are low risk. (see chart below)

OVERALL RESULTS FOR RURAL MUNICIPALITIES FOR 2019-20

Financial Condition Indicators Highlights

Overall Assessment Green (low risk)
 The overall Financial Conditions Index assessment for the District of Lunenburg is green (low risk). This means that, although the Municipality has a few challenges, it is considered low risk for fiscal instability.

As shown in the House model below, Lunenburg's FCIs are comprised of:

- Low Risk (green): 12 Indicators
- Moderate Risk (yellow): 0 Indicators
- High Risk (red): 1 Indicator

Details on the individual FCI assessments and the Municipality's specific challenges are provided below.

* For 3-year Change in Tax Base, CPI % change for 2020 is 3.2% and for 2019 is 5.2%

The Base FCI Indicators

Reliance on a Single Business or Institution

2020 Results:

Low risk 0.4%

The largest single commercial or institutional account is only .4% of the Municipality's total Uniform Assessment.

What does it mean?

The Municipality is showing no vulnerability in this area. The Municipality's tax base is not dependent on one single business or institution.

Calculation:

$$\frac{\text{Taxable assessment value of the largest business or institution}}{\text{Uniform Assessment}} = 0.4\%$$

Risk Thresholds:

-  Low: Less than 10%
-  Moderate: 10% to 15%
-  High: Greater than 15%

Three-Year Change in Tax Base

2020 Results: **Low risk** **5.2%**

What does it mean? Growth is above the CPI % change of 3.2%.

The municipality's tax base is strong to cover the cost of municipal services and programs.

Calculation:
$$\frac{\text{Current Uniform Assessment} - \text{Uniform Assessment 3 Years Prior}}{\text{Uniform Assessment 3 Years Prior}} = 5.2\%$$

- Risk Thresholds:**
- Low: Equal or above CPI% Change
 - Moderate: Below CPI % Change, but not negative growth
 - High: Negative growth

Figure 15- Three-year change in Uniform Assessment in comparison to three-year change in CPI for the last 5 years. Source: Statement of Estimates-Assessment and Statistics Canada

Residential Tax Effort

2020 Results: **Low risk 2.4%**
2.4% of median household income is required to pay the average tax bill.

What does it mean? The Municipality has some flexibility to increase the taxes, if required.

This indicator helps council assess the affordability of municipal taxes in relation to the current service levels.

Calculation:
$$\frac{\text{Total residential tax revenue per dwelling unit}}{\text{Median Household Income}} = 2.4\%$$

Risk Thresholds:

	Low: Less than 4%
	Moderate: 4% to 6%
	High: Greater than 6%

FCI Indicators - Structure (Management) Indicators

Debt Service

2020 Results: **Low risk 5.5%**
5.5% of own source revenue is spent on principal and interest payments.

What does it mean? With adequate cash flow, the Municipality has the potential for flexibility to increase borrowing levels to help finance future capital expenditures

Calculation:
$$\frac{\text{Principal and Interest Paid on Long-term Debt}}{\text{Total Own Source Operating Revenue}} = 5.5\%$$

Risk Thresholds:

-  Low: Less than 10%
-  Moderate: 10% to 15%
-  High: Greater than 15%

Undepreciated Assets

2020 Results: **Low risk 75.3%**

What does it mean?

This indicator estimates that the Municipality's capital assets have 75.3% of useful life remaining.

Municipalities across Canada are facing sufficient infrastructure challenges. This indicates that the Municipality is experiencing less of an infrastructure challenge than other municipalities.

Calculation:

$$\frac{\text{Total Net Book Value of Capital Assets}}{\text{Gross Costs of Capital Assets}} = 75.3\%$$

Risk Thresholds:

-  Low: Greater than 50%
-  Moderate: 35% to 50%
-  High: Less than 35%

5-Year Budget Accuracy

2020 Results: **High risk** 2 of the last 5 years, actual expenditures were within +/- 5% of budget

What does it mean? The Municipality did not consistently maintain expenditure spending within budget limits.

Calculation:
$$\frac{\text{Total budget expenditures} - \text{Total actual expenditures}}{\text{Total budget expenditures}}$$

Risk Thresholds:

- Low: 5 out of 5 years, expenditures were within +/- 5% or expenditure and revenue variance were within +/- 5% of each other
- Moderate: 4 out of 5 years, expenditures were within +/- 5%
- High: Less than 4 out of 5 years, expenditures were within +/- 5%

Figure 16- Operating budget variance over the last 5 years. Source: Financial Information Return and Statement of Estimates- Budget

Municipal Comment:

The Municipality strives to respond to the needs of the community in a fiscally responsible manner by creating a budget that maintains stable tax rates and meets the service levels established by Council. The 2020 Financial Condition index is proof of this fiscal responsibility with green indicators in all dimensions except one. The budget accuracy dimension is red due to budget surpluses. These surpluses are placed in reserves to ensure there are funds to help mitigate the financial impact of major, nonrecurring or unforeseen expenditures on the Municipality’s annual operating budget, as well as take advantage of unexpected opportunities to leverage external funding programs.

Number of Deficits in the Last 5 Years

2020 Results: **Low risk** 0 Operating deficits in the last five years

What does it mean? Deficits are important indications of financial health. The result indicates that the municipality is able to meet its needs in a balanced manner and maintain a balanced budget

Calculation: The number of non-consolidated operating deficits in the last five years = 0

Risk Thresholds:

-  Low: 0 in the last 5 years
-  Moderate: 1 or more in the last 5 years
-  High: 1 or more in the last 2 years with one material deficit (0.5% of operating expenses)

Figure 17- Annual operating fund surplus (deficit) for the last 5 years. Source: Financial Information Return

Combined Reserves

2020 Results: **Low risk** **135.1%**

What does it mean?

This result indicates that the Municipality does appear to have sufficient reserves needed to address unexpected events or provide flexibility to address future projects

Reserves are critical components of a municipality's long-term sustainability. This indicator shows the value of the funds held in the reserves compared to a single year's operation, including amortization expenses.

Calculation:

$$\frac{\text{Total Operating and Capital Reserves}}{\text{Total Operating Expenses plus Amortization Expense}} = 135.1\%$$

Risk Thresholds:

- Low: Greater than 40%
- Moderate: 30% to 40%
- High: Less than 30%

* This 150% range tachometer is developed only for those municipalities with Combined Reserves exceeding 100%, which means that the Municipality had more funds held in the reserves than total operating expenses including amortization for the 2019-20 fiscal year.
